

One SPED Co-Op. Every District You Serve.

Bring students, providers, teachers, support documentation, and leadership visibility together across every member district.

THE CHALLENGE

Your Co-Op may serve students across multiple districts, campuses, teachers, schedules, and technology platforms. The IEP may tell you what should happen. The harder question is: Is it actually happening?

NOT ANOTHER IEP SYSTEM

Keep the IEP platforms your districts already use. StorylineIQ focuses on the next stage:

Plan > Practice > Evidence > Insight

THE STORYLINEIQ APPROACH

Connected Districts

Work with students explicitly shared by StorylineIQ member districts.

Independent Districts

Manage Co-Op-served students without requiring a district purchase.

Provider Caseloads

Give staff one view across assigned districts and campuses.

Teacher Collaboration

Use printed sheets, secure links, or a lightweight portal.

QR-Enabled Documentation

Return paper through the existing scan-and-review workflow.

Co-Op AdminIQ

See overdue requests, review work, activity, caseloads, and attention needs.

NO DISTRICT-WIDE ROLLOUT REQUIRED

Start with your Co-Op. Teachers can participate through paper, secure links, or lightweight accounts. Connect districts to the broader StorylineIQ platform when they are ready.

DESIGN PARTNER PILOT

\$1,500

120 days

- Up to 10 member districts
- Up to 500 students
- Unlimited staff and teachers
- Guided onboarding and support

FOUNDING CO-OP

\$4,800/year

Limited early-partner pricing

- Full pilot fee credited
- Expected standard: \$7,500/year
- Two-year price lock may apply

CONNECTED DISTRICT BENEFIT

\$375 + \$375

When a member district converts

- Co-Op renewal credit
- District initial-purchase discount
- Benefits apply to organizations

Turn plans into practice.
